## Guest Lectures are hot at UIP50 Monaco

Want to know how the treatment of venous disorders has evolved in the past 50 years ?

Then attend the guest lectures of **Kevin Burnand** (UK) and **Christina Jeanneret** (CH) on Monday.

Want to know why varicose veins develop ?

Then attend the guest lecture of **Nicos Labropoulos** (USA) on Tuesday.

Want to learn about asymptomatic venous clots ?

Then attend **Werner Blättler's** (CH) guest lecture on Wednesday.

Want to decide if venous outflow impairment is important ?

Then attends **Seshadri Raju's** (USA) lecture on Thursday.

Want to know more about the embryology of the venous network ?

Then attend the lecture of **BB Lee** (USA) on Friday.

## Cool social activities in the Principality

Monaco has plenty of museums and places to visit :

the **Prince's Palace**, the **Oceanographic Museum** where Cousteau prepared his missions, the **Exotic Garden**, the **Naval Museum**, the **Japanes Garden** (close to the meeting) and many more.

Monaco meetings® booklet given at registration will provide you with **coupons for reduced fees** and will be your guide for shopping and dining throughout the Principality.

## What's new at UIP50 Monaco

### THE NEOVALVE IN PTS: TIPS AND TRICKS

« Deep neovalve construction can be performed in highly selected patients with low complication rate, high competence rate, high ulcer healing rate, and low ulcer recurrence ».

*Oscar MALETI (Italy) says.*

The technique will be explained step by step and technical details will be discussed by the creator.

**Oscar Maleti (I)**,

Discussant **Michel Perrin (F)**.

*Expert session on Tuesday  
7.30 - 8.45*
