For **sixty-five years**, AIM has been building bridges between people, ideas, and cultures. Every encounter has become experience. Every experience, growth.

It all began with a vision: that meeting could be a form of art, a way to improve the world through knowledge.

**Enzo Buongiorno** set the course. Today, under the leadership of **Gianluca Buongiorno** and new generations of managers, that vision continues to evolve, nurtured by innovation, passion, and ethics.

AIM is not just a company, but a community moving with time, growing while remaining true to its values.

**Because the future is not something we wait for: it is built together, by uniting expertise and heart.**

Sixty-five years mark both an achievement and a new beginning. They speak to the strength of a legacy, and to the courage required to keep looking ahead.

This story was born from my father's dream. He was among the first to understand that bringing people together could generate value, knowledge, and future. To him we owe the roots of an enterprise that has grown, innovated, and crossed eras, while remaining faithful to its identity.

**Today, AIM is an international community:** a mosaic of skills, talents, and perspectives, of people who share passion, responsibility, and vision. It is they who shape our future every single day.

Leading AIM means safeguarding a history while writing a new one at the same time.

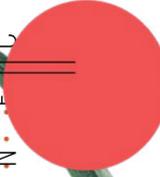

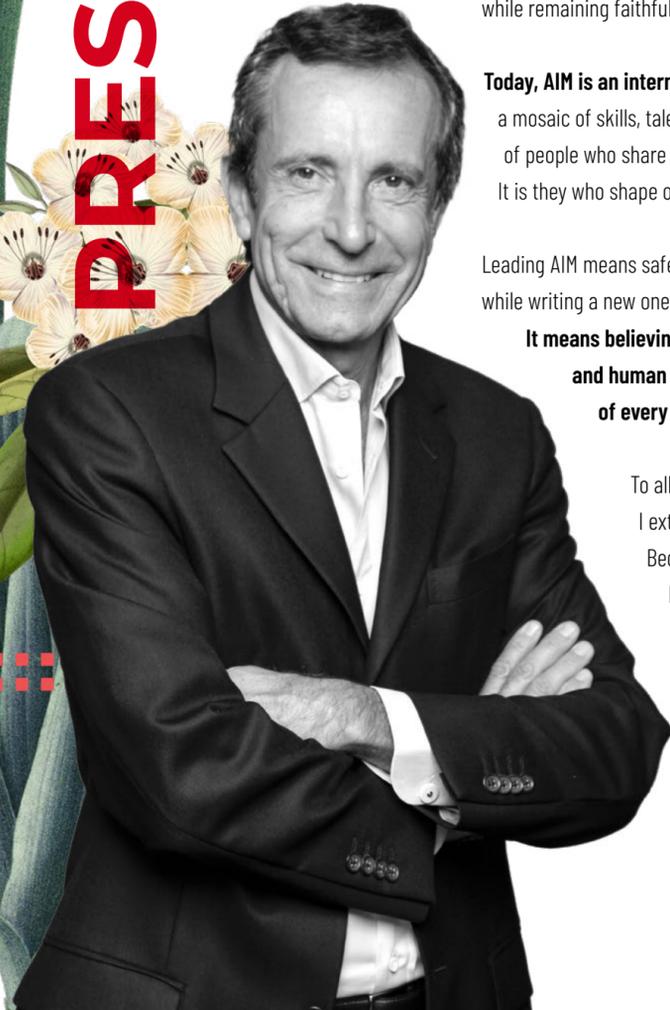

**It means believing that ethics, creativity, and human connection remain at the heart of every meaningful form of progress.**

To all those who have made this journey possible, I extend my deepest gratitude. Because the true strength of AIM lies not in the passing of time, but **in the people who give it life.**

# LIVING TIME AS MATTER PROLOGUE

Sixty-five years of encounters.  
A time not measured in numbers,  
but in **people**,  
in dreams that touch,  
in paths that cross.  
This is the story of a flow  
in constant evolution:

*the time of AIM.*

# ORIGINS

W H E R E  
V I S I O N  
I S B O R N

**Rome, 1960.**

Enzo Buongiorno sensed that the future of meeting could be a form of art. **AISC** was born—today **AIM**—among the pioneers of the congress world, with a heart devoted to science and eyes fixed on tomorrow. From a cardiology congress, a heartbeat that still continues today.

# ART OF CONNECTION BRINGING PEOPLE TOGETHER

"Greatness is born when people work together toward a common purpose."

Steve Jobs

AIM was born to build bridges, not to erect walls. Every event, every journey, every shared word has been a way to bring distant worlds together and create human connections. **Sixty-five years later,** we are still what we have always been: **people who bring people together.**

"The best way to predict the future is to create it."

# NO LONGER, ALWAYS

The future is not something we wait for: it is imagined, built, lived.

Enzo Buongiorno understood this instinctively. Innovation is not a destination – it is a way of thinking. Today, that same vision renews itself, finding continuity through change.

**Vision is a living legacy, growing every day through those who continue to look ahead.**

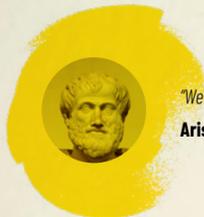

# THE ENERGY THAT CROSSES TIME

From Rome to the world, AIM  
has become a constellation  
of talents and cultures.

**Barcelona, Bratislava, Brussels,  
Budapest, Florence, Lisbon,  
Madrid, Milan, Paris, Porto,  
Prague, Rome, Vienna.**

Different cities.  
One shared energy  
that moves and transforms.  
Movement is our native language:  
every step is an idea taking shape.

*"We cannot direct the wind, but we can adjust the sails."*  
**Aristotle**

# Shaping the Future Experience

C R E A T I V I T Y

Every event is a laboratory of emotions.  
We have transformed **organization into art,**  
**precision into inspiration,**  
**logistics into experience.**  
AIM does not execute: it interprets.  
Where others see a program,  
we see **a story waiting to be told.**

# EVOLUTION

C H A N G I N G  
T O  
R E M A I N  
A U T H E N T I C

For sixty-five years, AIM has changed its form  
in order to remain faithful to its essence.  
From medical congresses to digital experiences,  
from corporate events to hybrid connections.  
Always guided by the same compass:  
**innovating while remaining human.**  
Every transformation  
is a new way of expressing who we are.

"Intelligence is the ability to adapt to change."

Stephen Hawking

# COMMUNITY

THE  
STRENGTH  
OF  
SHARED  
IMPRINT

AIM is made of people:

**300 faces, 300 stories, one shared imprint.**

A mark that, from a distance, appears singular,

yet up close reveals its true richness:

the sum of many individual identities

moving and acting as one.

Within every name lies a fragment of the future.

And in that unity

resides our greatest strength.

*"Talent wins games, but teamwork wins championships."*

Michael Jordan

From the creation of the Enzo Buongiorno Rehabilitation Center in Burundi to sustainability and inclusion initiatives,

**AIM has consistently chosen to leave a positive mark.**

Our vision of the future is built on impact – not on results alone.

"You cannot go through even a single day without having an impact on the world around you. What you do makes a difference, and it is up to you to decide what kind of difference you want to make."

# FUTURE

The future is not a distance:  
it is the closeness of what we imagine together.  
With the same passion as those who began this journey,  
and the vision of those who lead it today,  
AIM continues to reinvent  
the way we meet, think, and evolve.  
**Because the future, like time,  
is not something we own:  
it is something we move through.**

*"Every future begins with a simple intuition:  
imagining what we cannot yet see."*  
Gianluca Scavo \_ CEO AIM Group International

*"Sixty-five years on, AIM continues to breathe in rhythm with the world – a breath made of people, ideas, and a shared future."*

And every day, under the leadership of **Gianluca Buongiorno** and a young, passionate management team, that legacy continues to evolve – breathing through time and projecting itself into tomorrow.
